

9th International Science, Social Science, Engineering and Energy Conference

May 2nd – 4th, 2018

Ambassador Bangkok Hotel, Bangkok

1. Principles and Reasons:

Research is one of the four main duties of Institute of Higher Education. It is the core part to develop learning and knowledge to cope with other parts of jobs in the university, for example, teaching and studying, academic service, etc. Apart from the knowledge received, the result from researchs can be used to resolve many problems of the society or public policy or commercial issue. Therefore, we can see that many universities give the importance to the productivity and research. Each teacher has an opportunity to comply the research with the teaching. The research is also the quality indicator of all teachers in the university.

Kasem Bundit University concentrates on any support and development of the researcher, including build up the cooperation network in local areas and regions for better quality of research. Thus we can make use of the outcomes to consistently develop the organization and local areas. We encourage all teachers to attend the national and international seminars and meetings, offering all research results in each meeting and be published in academic journals. Consequently, the research outcomes which is up to standard are published widely.

The International Science, Social Science, Engineering and Energy (I-SEEC) was first held since 2008 by Rajamangala University of Technology Isan Sakonnakhon Campus. We are proudly selected to be the host at the fourth time in 2012 and in 2018. Selected papers and research will be published in Kasem Bundit Journal, Kasem Bundit Engineering Journal, and I-SEEC's Proceedings.

Moreover, the international conference offers the inaugurated platform for interested teacher, students attend as they can exchange the knowledge and research experience. Being a host of the seminar will also indicate the potential and strength of university. Therefore, Kasem Bundit University agreed to arrange the 9th International Science, Social Science, Engineering and Energy (I-SEEC 2018) in order to support academic strength and proceed the ability of network going forward.

2. Objectives:

- a. Open a stage to offer academic / research in international level, publish the academic progress of the academic staff, researchers, teachers, and students, both in and outside country.
- b. Encourage and support the teachers in the university to realize the importance of research and publishing of academic job / research job.
- c. Support and build academic network / research with the university, both in and outside country.
- d. Publish academic research in international level.

3. Format and activities:

The 9th International Science, Social Science, Engineering and Energy will consist of following activities:

- a. Keynote speaker
- b. Oral presentation
- c. Poster presentation

4. Topics for research will cover following:

Track I: Science and Engineering	Track II: Social Science
<ul style="list-style-type: none">- Agricultural Science, Engineering and related areas- Chemical Science and Engineering- Computer Science and Engineering- Electronics and Telecommunication Engineering- Energy and related Environment- Geographical Information Science (GIS)- Optical Science and Technology- Physics and Materials Science- Water Resources Engineering and Management Including related areas- Other relevant areas	<ul style="list-style-type: none">- Arts and Humanities- Aviation Industry- Business, Management and Accounting- Decision Science- Economics and Finance- Nurse- Psychology- Social Science- Sport Science- Other relevant areas

5. Expected benefits:

- a. Encourage teachers to produce better quality of research to offer on stage in international level with good standard.
- b. The paper that has been published will be required and acceptable standard, both in national and international level.
- c. Encourage cooperation among universities, both inside and outside country.
- d. The paper that has been published can be used as part of setting up the academic position of teacher or can be used as part of the graduation consideration.

6. Target group:

Teachers, researchers, students. Kasem Bundit University, other university under the same network, and other interested people, both inside and outside country. Expected 100 attendants.

7. Success indicator:

- a. Quantities of research journals, 100 papers expected.
- b. Around 5 universities attend.

8. Schedule and venue:

May 2nd - 4th, 2018 at Ambassador Hotel Bangkok, Bangkok.

9. Registration:

- Teacher THB 7,900
- Student THB 6,000
- Foreign researcher USD 290
- Observer THB 3,000
- Foreign observer USD 100

Note: (USD 1 = THB 33.22 / dated 31st Oct, 2017)

10. Co-ordinators:

- a. Research Department, Kasem Bundit University
- b. Institute of Research and Development, Phranakhon Rajabhat University
- c. Office of the President, Webster University
- d. Faculty of Science and Technology, Kasem Bundit University
- e. Computing and Technology Center, Kasem Bundit University
- f. Technology for Education Development Center, Kasem Bundit University
- g. Kasem Bundit Journal, Kasem Bundit University
- h. Kasem Bundit Engineering Journal, Kasem Bundit University
- i. Graduate School, Kasem Bundit University

11. Responsible person:

- Research Department and Committees, Kasem Bundit University
